What do you feel your TA does well?

Explaining ~~these~~ difficult concepts and using visuals to help clarify things.

What are some areas in which your TA could improve the learning experience for the course?

It helps if what you are thinking / saying aloud is also written on the board.

**PLEASE** take a few minutes to make any additional comments that might be helpful in evaluating your instructor. Please write your comments below (you may use the back of this sheet if you need more room).

The only thing is, I know we're pressed for time, but when we have to compute something and you're writing it out on the board, could you write it on a new line instead of erasing it. ↪

What do you feel your TA does well?

~~He~~ I feel he does well in explaining the material to the class, but some times moves to fast on some concepts. Also, has some cool facts about how math can be some cool stuff, which is kinda motivating.

What are some areas in which your TA could improve the learning experience for the course?

On more of the complicated stuff slow down on explaining & show more steps to see how the math is being done.

Do you feel comfortable seeking help/asking questions of your TA outside of recitation?	(1)	2	3	4	5

What do you feel your TA does well?

He is exceptionally great at deconstructing a concept, and examining the individual components that define that concept and its function. He is also very great at conveying the steps he decided to take to solve a problem, and other potential

What are some areas in which your TA could improve the learning experience for the course? Steps to solve the problem.

He occasionally goes off on tangents (no pun intended) in the middle of a problem that consequently takes more time away from class-time.

What do you feel your TA does well? He knows Math from beginning to end. He's very approachable, very polite.

What are some areas in which your TA could improve the learning experience for the course?  
I would suggest for him to do powerpoints just like Neil McBeth. It's easy to follow. Sometimes, on my end it was difficult to keep up with the subject and take notes at the same time.

PLEASE take a few minutes to make any additional comments that might be helpful in evaluating your instructor. Please write your comments below (you may use the back of this sheet if you need more room).

Andrew: I really admire your dedication and interest in Math and your students. You are a very likeable guy. Thanks for a great summer.

What do you feel your TA does well?

Knowledge of material ; easy to understand

What are some areas in which your TA could improve the learning experience for the course?

I would have liked if there was less recitation  
or the text's examples and more difficult examples.  
this would have helped with more comprehensive notes.
